

3--
judge in that case was, -- or maybe the prosecution didn't present their side of the case as well as might have been, --- but he still maintained that he would always believe that there was something at fault somewhere in that trial and the verdict. This whole affair has been a merciless persecution, of course, and if Spout of I2 could be so deluded by I crooked district attorney, I detective, - liar, - thief, -(Franklin) I expert traitor-trapper-liar-(Harrington)- into saying that D-- was guilty, against the word of 33 as high-class-high-toned honest and representative witnesses as anyone can hope to find anywhere,--and D- and myself added to that list,--- what can one hope for from any bunch of spinach-growing unthinking, unknowing fellows that seem to conclude that a man must be guilty because a district attorney who is a pillar of a church and pretty near prays on his knees before them that GOD will give them strength to send as many people as possible to prisons SAYS SO ! He knows all the tricks of his game as past-master of crookedness ! Even his Good Goevernment Party apellation helps to fool his townspeople -- and he is oh very, very sanctimonious and smug and purses his mouth just so and just so when he testifies and talks, you may be sure!
