### AMENDMENTS SUBMITTED FOR PRINTING

Mr. ABOUREZK (for himself and Mr. CRANSTON) submitted an amendment intended to be proposed by them jointly to the bill (S. 1816) to amend the Foreign Assistance Act of 1961, and for other purposes.

#### INDOCHINA REFUGEE CHILDREN ASSISTANCE ACT 1975—S. 2145

AMENDMENT NO. 877

Mr. JAVITS (for himself and Mr. MONDALE) submitted an amendment intended to be proposed by them to the bill (S. 2145) to provide Federal financial assistance to States in order to assist local educational agencies to provide public education to Vietnamese and Cambodian refugee children, and for other purposes.

ADULT EDUCATION FOR INDOCHINA REFUGEES

Mr. MONDALE. Mr. President, I am very pleased to submit today, with Senator JAVITS, an amendment which authorizes funds for adult education services to Vietnamese and Cambodian refugees to S. 2145, the Indochina Refugee Children Assistance Act of 1975. I wish to commend Senators CRANSTON and TUNNEY for their initiatives in advancing this terribly important legislation, which I cosponsored, to enable local school districts to provide for the special educational needs of Vietnamese and Cambodian children. This amendment expands the scope of that legislation to address also the pressing needs of refugees over the age of 18. It would amend the existing Adult Education Act to provide funds for programs of instruction to adult refugees in the development and enhancement of necessary skills, supportive services such as career guidance and employment counseling, other special educational programs and services, and the administrative costs of planning and implementing those programs of instruction.

Mr. President, this amendment responds to the serious need that has been expressed in my home State of Minnesota by the state department of educa-

tion and the superintendents of numerous local school districts for the resources to develop these special adult education programs. Minnesota expects approximately 3,000 Vietnamese adults who will require a wide range of educational services such as language skills, mathematics and budget planning, career development, and social skills in the adjustment to American life. At the State and local levels, educators are tremendously concerned about these problems and are planning with great commitment to respond to the challenge. This amendment will provide them with the resources to address these critical needs.

These educators recognize that comprehensive adult education programs are of great importance not only to adult refugees but also to their children. For the important educational services that will be provided by this Bill to children to be truly effective, they must be reinforced by parents at home. These children, who are future American citizens, will have far greater success in adapting to American life if their parents are progressing in their own right and are thus able to encourage and help their children in their language and social development.

While I recognize that the Department of Health, Education, and Welfare is planning to disperse \$5 million for special adult education efforts, I am concerned that this amount is insufficient to support the full range of programs that are required. In the case of Minnesota, this expenditure would provide only \$17 for each adult refugee. The National Advisory Council on Adult Education has estimated that approximately \$21.4 million over 2 years will be necessary to provide these services on a scale appropriate to the need.

For these reasons, I believe that this amendment is of tremendous importance to our country's efforts to respond compassionately and effectively to this challenge. It addresses a very specific need for a definite, 2-year time period. I also wish to point out that it involves no increase in the present level of funds authorized for adult education. I hope that my distinguished colleagues will consider it carefully, and I urge them to support its passage.
